“The IPAA has been, and remains, one of the most powerful voices of support and leadership for our industry. Your attendance, participation and support of their meetings and events will keep the IPAA healthy for years to come.”

T.M. “Roe” Patterson,
President & CEO, Basic
Energy Services

HISTORY

The Independent Petroleum Association of America (IPAA) has represented independent oil and natural gas producers for more than 80 years. On June 10, 1929, President Herbert Hoover called a national and state conference to discuss and formulate a practical program for the conservation of America’s natural petroleum resources. At that historic meeting at the Broadmoor Hotel in Colorado Springs, Colorado, oil operators, royalty owners, and land owners alike formed a new national association, the IPAA.

Today, IPAA represents the thousands of independent oil and natural gas producers and service companies across the United States. Independent producers develop 95 percent of domestic oil and gas wells, produce 54 percent of domestic oil and produce 85 percent of domestic natural gas. A recent analysis has shown that independent producers are investing 150 percent of their domestic cash flow back into domestic oil and natural gas development to enhance their already aggressive efforts to find and produce more energy.

IPAA is a national trade association headquartered in Washington, D.C. It serves as an informed voice for the exploration and production segment of the industry, and advocates its members’ views before the U.S. Congress, the Administration and federal agencies. IPAA provides economic and statistical information about the domestic exploration and production industry. IPAA also develops investment symposia and other business development opportunities for its members.

OUR MISSION

The Independent Petroleum Association of America is dedicated to ensuring a strong, viable domestic oil and natural gas industry, recognizing that an adequate and secure supply of energy is essential to the national economy.

Program Sponsorship Benefits

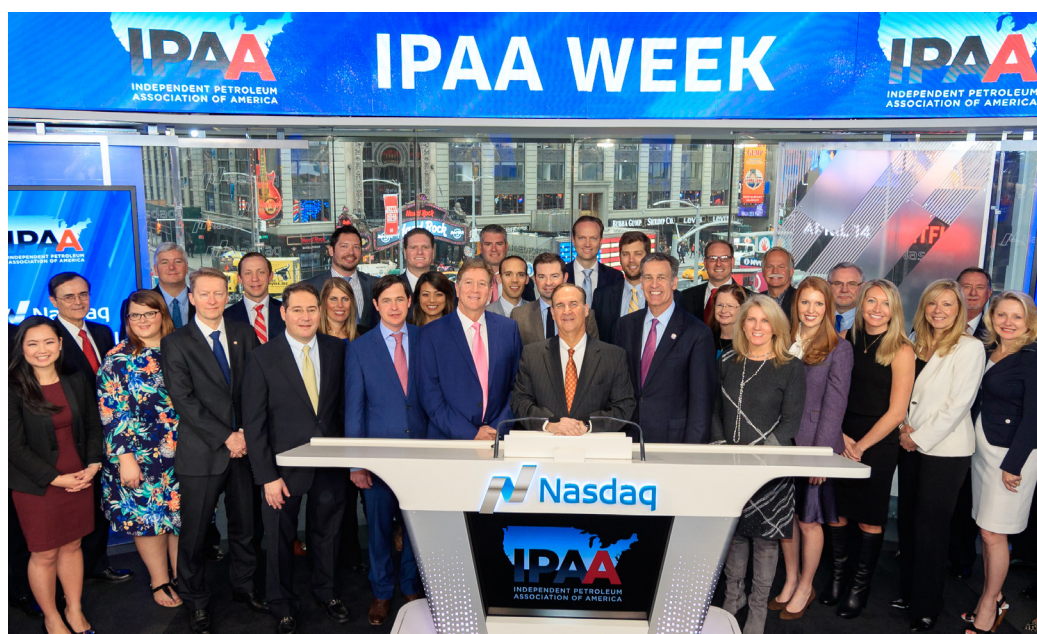

Thank you for taking time to review the many ways your company can support the Independent Petroleum Association of America's (IPAA) programs as we continue to represent the thousands of independent crude oil and natural gas explorer/producers in the United States. We are grateful to those companies who have sponsored IPAA over the years and who recognize the association as the national voice of the independent oil and gas industry. Sponsor support allows IPAA to continue creating programs that are of interest to our membership and in doing so, helps focus its contributions toward ensuring a strong, viable domestic oil and natural gas industry.

Sponsorship at any of IPAA's programs also allows you the opportunity to market to and network with hundreds of C-level and other senior executives with upstream oil and gas industry professionals from across the country. Each of IPAA's meetings fosters an ideal environment in which strategic relationships are developed—providing both parties with incredible business opportunities. Sponsorship packages are available at a variety of levels with higher level packages enhancing corporate visibility.

If you have any questions, contact Tina Hamlin, vice president of meetings and sponsorships at thamlin@ipaa.org. We are excited to continue our relationship with those who have supported us for so long, and look forward to building new partnerships for the future.

For more information on a specific sponsorship, speaking opportunities, annual packages, or to confirm availability, contact Tina Hamlin.
