

Reviews

August 14, 2018 in Houston, TX (during Summer NAPE)

"A very good overview course and it was easy to follow. It is a very informative, and great, crash course of the oil & gas industry." – ***Oil and Gas Software***

"It is a great way to get a true feel of the industry. It is a great overview regardless of your experience within the industry. I left this course knowing a lot more than I did prior." – ***Debt - Upstream Summer Analyst***

"The course was very informative overall." – ***Banking***

"This course provides a good general overview of oil and gas production." – ***Commercial Loan Servicing***

"Good broad overview. The speaker is knowledgeable and has broad expertise." – ***O&G Industry Software/Services Provider***

"This course was very informative." – ***Epidemiologist***

"The course is great to get a quick idea, to get the oil field situation." – ***Field Supervisor***

"It was informative about oil production, processing, history, and policies." – ***Teacher, Science Dept. Chair***

"The course is packed full of information. It is a class for those deeply interested in the specifics of the industry." – ***Educator***

"Very Informative." "The oil and gas industry in 8.5 hours!" – ***Educator***

"It was a great overview and it provided context to topics I was hoping to learn more about." – ***Sales for Software***

"The course was very informative and well organized, the various materials (ex. movie, pictures, and animations) are effectively used, the delivery of the course was excellent, the course was very good for newcomers in the industry, and this course gave us basic knowledge and a sense of the industry and its scope." – ***Oil and Gas Upstream***

"Great video and graphics." – ***Field Intern, Petroleum Engineer***

"This was one of the best courses I have ever taken! It was a really effective way to learn about the oil & gas industry." – ***Credit for a Bank***

"The course is very informative, come ready to learn." "I learned a lot but it was a bit much in one day." – ***Engineering Teacher***

"This course is a comprehensive overview of oil and gas at a manageable level of complexity. The videos within the slides were extremely useful and descriptive! It is a good course and well worth the time and cost." – **Programmer/Technician in Oil and Gas Finance**

"This course provided in-depth detail about the oil and gas business in a simplified yet detailed manner." – **O&G lending**

"This was an excellent high-level intro to the oil and gas industry." – **Sales for O&G Software Company**

"Great intro or refresher course." – **Business Development**

"I want all of my new hires and people new to the industry to take this course." – **Sales Manager**

"This is the best oil and gas overview course I've attended." – **Engineering Technician/Oil and Gas Finance**

"Very thorough and well presented with great visual aids." – **Banking**

"Superb, highly crafted and knowledgeably delivered. It is a very complete overview with excellent presentation and videos!" – **Educator**

"It is worth more than I paid." "It took the concepts I've heard about and put them in the proper context. The greatest value of the course came from learning how the vocabulary heard in professional conversation relates to the industry as a whole. This is not only for beginners but helpful to multiple experience levels." – **Geoscience Company**

February 5, 2018 in Houston, TX (during NAPE Summit)

"Fantastic intro course. Be prepared to be flooded with material." – **Commercial Banking**

"Great overview of basic points. It leaves participants literate in the basic concepts." – **Political Affairs**

"The course provides an overall understanding of the processes in oil and gas industry." – **Capital Provider**

"Great presentation. Easy to process." – **Landman**

"Great overview of oil and gas and how things came to be." – **Project Admin - Seismic**

"Helpful visually, thanks to good animations. The video segments were very good. It is much more explanatory than slides for the subject matter. It is a good introduction to all segments of the industry, presented in a way most non-geologists or scientists can understand." – **Geo Tech**

"It is a lot of information but really enjoyed the material. The instructor is direct, concise, and answered all of our questions. The videos were especially helpful. It is very thorough, bring your thinking cap and be ready to ask questions. I would definitely take more courses of this sort." – **Economic Development/Trade Officer**

"A good comprehensive overview of the industry." – **Consulting – Financial Advisory and Internal Audit**

"Fantastic overview. It will allow anyone with little experience to get a firm grasp of the fundamentals in a very short period of time." – **Banker**

"The instructor, Mr. Parsons', knowledge and understanding was very effective. It is a good, well-paced overview which

allows a broad audience to be able to get good information. The visuals and audio provide excellent examples for reference." – **Pipe Sales - Manufacturer**

"Great intro or refresher on the industry." – **Oil and Gas Finance**

"Broad oil and gas overview of upstream that is, at once, high-level and granular." – **Attorney for Energy Transactions**

"It is a broad overview but the detail of the subjects help break it down. – **Video Reporter for an Oil and Gas Publication**

"A perfect beginner course, covers everything in a perfect amount of detail." – **Oil and Gas Office Manager**

"Great general overview from exploration to production." – **Banker**

"It is a brilliant presentation of complex matters. I highly recommend for newcomers to the industry." – **Oil and Gas Compliance**

"It is a wonderful, extremely informative course and instructor." – **EHS Tech**

"It is a high-level oil and gas overview. It is a great introduction to the material and/or a course to refine knowledge and dig deeper into the subject." – **Energy Banking – Commercial Lending]**

"Very good and concise presentation that covers a lot of ground." – **Banker**

October 2, 2017 in Midland, TX

"This was the best overview course I have ever attended."
– **Production Engineer Technician**

"The instructor is very knowledgeable. He did not read anything to us, which made it more interesting. The course was very informative. Students drawn to the oil and gas field would benefit from this." – **Instructional Specialist for Public School**

"This is one of the best classes I have ever attended. The instructor even covered subjects that you don't think of normally." – **Production Engineer Technician**

"Well worth the time as an overview of the industry. It had very relevant substance and was communicated effectively."
– **Oil and Gas Attorney**

"Great overview of the industry and a great overall learning experience." – **Sales Representative for an Oil and Gas Publication**

"This course provides a quality overview of the oil and gas industry in terms that a person without experience can understand. I really appreciated the animations to explain how drilling equipment works" – **Accountant**

"The instructor was very informative and open to questions. The materials were very helpful in my learning process. This course will help you understand a basic overview of the industry and then some." – **Production Engineer Technician**

August 15, 2017 in Houston, TX (during Summer NAPE)

"It is definitely worth your time because it covers multiple areas of the industry. [The instructor was] very knowledgeable [and had] great delivery"- Landman

"[There was an] excellent [use] of text, pictures, video, and animation"- Specialty Chemicals for the Petroleum Industry

"[The] instructor was very knowledgeable [and] the course [was] very well-organized, informative, and simplified well for a non-industry individual to understand"- Educator

"Great overview of the oil and gas industry"- Finance

"Comprehensive course and a great one day overview!"- Office Staff

"This is a great course for people who are in the industry because it systematically ties all of the oil and gas disciplines together"- Surface Land and Construction

"[This course] definitely helped me gain confidence to speak with industry professionals. There was enough information for two days but it was nice to only need to dedicate one day. Overall, it was great!"- Apprentice to the CEO of an Oil Exploration Company

"Highly recommended and great for students"- Recent College Graduate

"Very good overview of most aspects of [the] oil and gas industry"- Consultant

"This class is an overall great introductory course for everything that goes into the exploration and production of hydrocarbons"- Recent College Graduate

April 28, 2017 in Houston, TX – during the Offshore Technology Conference (OTC)

"This is a must for anyone trying to gain general knowledge in the oil and gas industry. The instructor knows the information in depth. I enjoyed the videos."- O&G Data Service Provider

"Very insightful!"- CFO

"Great class! Extremely informative and well presented. Highly recommend."- Marketing for Energy Finance Team

"I highly recommend to newcomers to the industry."- Attorney

"It's a good way to make sure you don't look like an idiot when people talk about the industry."- Journalist

"It was fantastic! A very thorough overview of all segments of the O&G industry. Loved the insertion of videos, testing questions and helpful use of PowerPoint. I would love to attend more classes like this."- Exec. Asst. for Private Equity Firm

"The course is very helpful and informative to people wanting a better understanding of the industry. Highly recommend. I wish there was more information about the refining process."- Chemical Engineering Graduate

"The course meets its objective of giving you an overview of the oil and gas industry."- General Manager, Oilfield Supplies

*"Great for first timers in the oil and gas industry!" - **Trade and Investment Officer***

February 13, 2017 in Houston, TX (during NAPE Summit)

*"Very good comprehensive course with a lot of visuals to help understand." - **Accountant***

*"A thorough introduction to oil and gas. It's a lot of material to digest for someone new to the industry; however, I learned a lot and have a good overall feel for the industry now. A great seminar!" - **Newcomer***

*"Great overview of the entire oil and gas industry. The animated slides were great." - **Landman***

*"Good basic overview. Highly recommend." - **Human Resources***

*"A very good seminar. Great overview. Instructor very clear." - **Landman/Consultant***

*"Better than expected. Technical learning for non-technical people. Would like more offshore analysis, even if a separate course. Instructor very effective." - **Financial***

*"Great introductory course regarding the industry." - **Banking***

*"A great overview for people with some exposure to oil and gas who want a broader understanding. The instructor was knowledgeable and easy to follow. I recommend." - **Well Permitting Analyst***

*"Great course that covered the E&P portion of the business." - **Midstream***

*"A great overview for someone new to the industry or just a refresher course. Definitely recommend." - **Commercial Supply Rep.***

*"Great instructor; good audio-visual aids." - **Bank Lender***

*"Take this course if you want to learn the basics." - **Consultant***

*"Great overview. Sufficient detail." - **E&P Company Owner***

*"Great overview of the industry." - **Landman***

*"Great for individuals that are new to the industry." - **Capital Investor***

*"Great course! Well-presented industry-relevant material." - **Sr. Analyst, Corp. Finance***

*"Definitely recommend." - **CPA***

*"Great course to gain exposure to all aspects of the oil & gas business." - **Water Disposal Business***

*"Great overview of the energy industry." - **CFO, Midstream***

*"It covers basic and intermediate oil and gas. It was an interesting class and I learned a lot. The questions with electronic response cards were fun." - **Non-operator admin***
